

**GENERAL DESCRIPTION**

The purpose designed Decorus aluminium lantern roof system is discreet yet stylish. Decorus allows light to flood into your home's interior, the ideal modern lantern solution, coupling sleek contemporary looks with truly outstanding performance.

Designed from the ground up around an innovative thermally broken system, it provides excellent thermal performance – keeping cool in the summer and warm in the winter – while delivering the architectural refinement you would expect of a high end aluminium lantern system.

Whether you are building a new kitchen-diner extension or replacing an existing lantern roof, Decorus will help redefine your home, creating light and airy spaces for you to enjoy.

**DESIGN AND COLOUR OPTIONS**

Available in a 2-way, 3-way or contemporary design models with sizes up to 3m x 6m, this high end, high performance lantern roof is ideal for modern living. Decorus is ideal for fresh, bright interiors that want to be opened up and bathed in light.

Decorus comes in a choice of 2 hard-wearing exterior powder coated finishes (or any RAL colour), with a white interior finish.

For the ultimate in minimalism, the innovative contemporary style supports the ridge solely by the hip rafters, for an ultra slim, clean and modern look.

**SIMPLY BUILT BETTER**

Every element of the Decorus Thermal Lantern Roof has been designed to be exceptional. From the low profile 20° pitch that allows us to use purpose designed cappings that keep sightlines to a minimum – and your view of the sky maximised – to the discreet black finish of our perimeter beam that ensures if you view the lantern from above all you will see is glass and a discreet shadow line.

Decorus is high-quality British engineering at its best.

66% smaller ridge than conventional aluminium roof systems for stunning aesthetics.
