Three exclusive decking ranges to suit every space

Page 06

Voyage MBC decking board is designed with textured embossing for best-in-class traction

Voyage is developed from a revolutionary mineral-based composite with a unique formula that provides unmatched strength and a 35% lighter construction.

Page 24

Every great journey starts with a step on the right Trailhead co-ex WPC decking

Trailhead decking contains quality in every fibre. The scratch-resistant surface, natural grain design and grooved profile keep the decking looking spectacular and make it a market standout.

Page 14

Help transform outdoor living areas into tropical destinations with Vista co-ex WPC decking

Vista decking has the appearance of exotic hardwood without the maintenance or price point. This striking composite decking has a vertical grain design and can be installed with ease.

Page 32

Take your decking range the next level with our decking lights and fixings

Offer the full outdoor living package to your clients and customers. Choose from discreet, secure fixings that ensure seamless installation or make every finished project the best one yet with stunning deck lights.

Mineral-Based Composite Decking

Voyage decking

The mineral-based composition of Voyage decking is 35% lighter than other leading decking brands and has 34% greater surface traction.

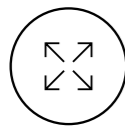

Voyage MBC Decking

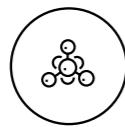

Beautiful mineral composite decking like no other

Voyage decking is part of Deckorators® patented mineral-based composite technology line and provides the industry's best strength-to-weight ratio. Voyage features a fibre-like structure similar to wood that has unmatched strength while being nearly 35% lighter than traditional composites. Voyage varied-plank decking is now available in two different widths to create that custom wood floor look.

There is virtually no thermal expansion or contraction with Voyage decking, and it is ideal for use near water as it features textured embossing for enhanced traction. Voyage is warranted for installation in the ground or water.

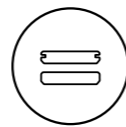

Dimensions available:
140 x 21 x 3660 mm
235 x 21 x 3660 mm

Revolutionary
Eovations™ mineral-
based technology.

Exceptional stain
and fade-resistant
cap material.

Grooved-edge
or solid profile.

Sierra

Khaya

Voyage decking will not rot, splinter or decay like wood. It has been tested under accelerated weather conditions and is weather resistant.

Sierra

Create contemporary decks at the peak of outdoor design with the neutral hues and practicality of Sierra.

Khaya

Bring rich and warm undertones into exterior spaces and spread the branches of outdoor architecture with Khaya.

Co-Ex Wood-Plastic Composite Decking

Vista decking

The variegated colours and texture of the Vista co-ex decking range help give decked areas a tropical getaway feel.

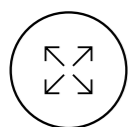

Vista Co-Ex WPC Decking

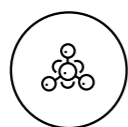

Get the appearance of exotic hardwood without the fuss

Vista is a wood-plastic composite decking with the appearance of exotic hardwood. However, despite its rich, bold hardwood appearance it doesn't come with the high maintenance or steep cost. Vista is an attractive deck board with a vertical grain design. It can be styled and laid quickly and easily to create breathtaking exterior areas in residential or commercial spaces.

Vista co-ex WPC decking has a scratch-resistant surface on three sides, including the grooved profile that keeps the decking looking spectacular.

Deck board dimensions:
140 x 21 x 3660 mm

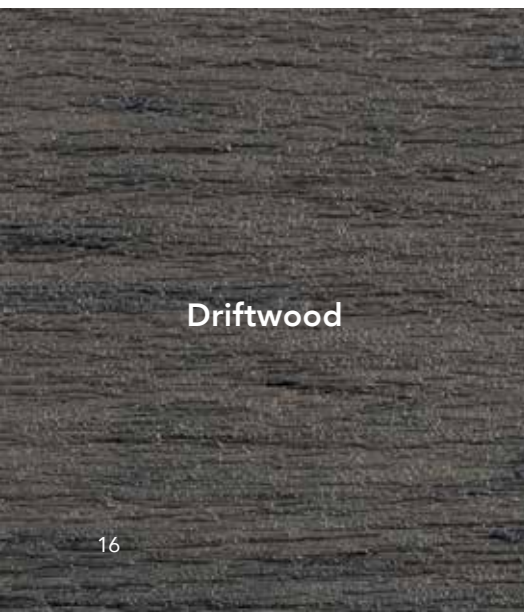

Co-extruded wood plastic composite deck boards.

Exceptional scratch-resistant cap material.

Grooved-edge or solid profile.

Driftwood

Ironwood

Silverwood

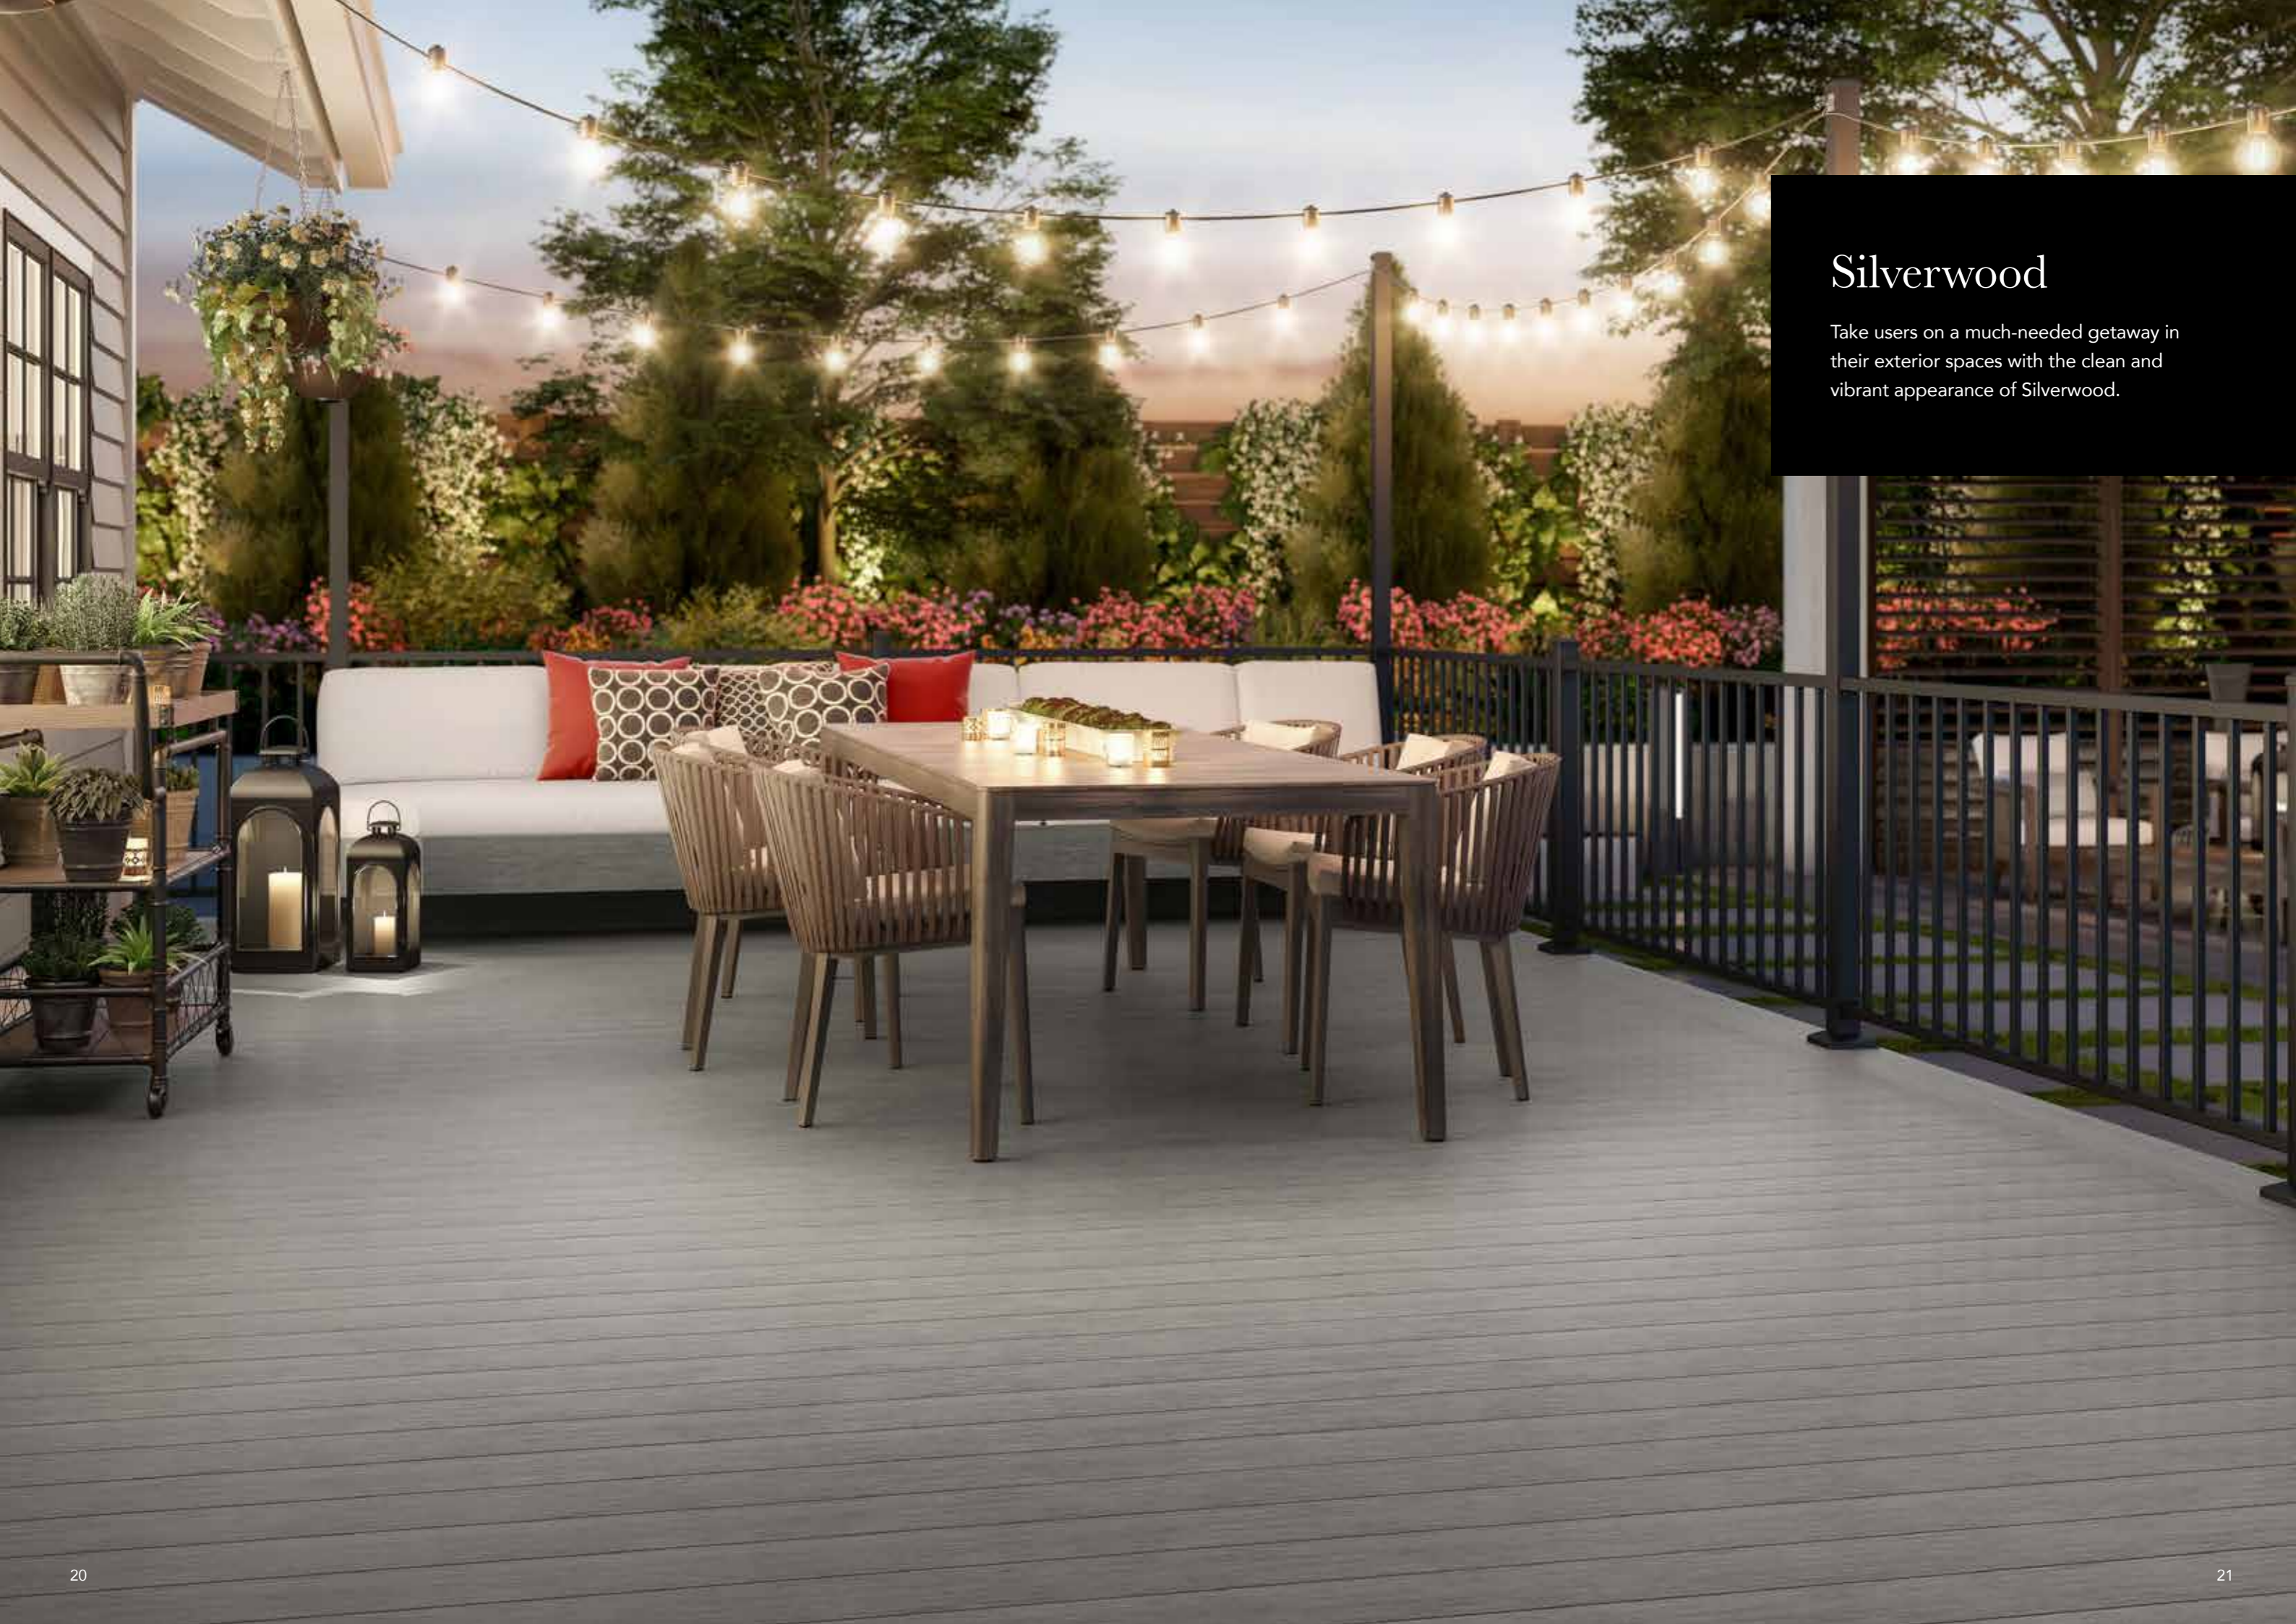

Mix and match colours to create show-stopping outdoor areas with the Vista co-ex WPC decking range.

Driftwood

Mimic the appearance and character of exquisite tropical hardwood with the beautiful Driftwood colour option.

Silverwood

Take users on a much-needed getaway in their exterior spaces with the clean and vibrant appearance of Silverwood.

Ironwood

Choose products that transform exterior spaces and gardens into a comforting refuge with the dark tones of Ironwood.

Co-Ex Wood-Plastic Composite Decking

Trailhead decking

Take a step into the great outdoors with the robust and stylish Trailhead decking. This decking offers high performance and character to supply an impressive decking solution.

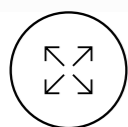

Trailhead Co-Ex WPC Decking

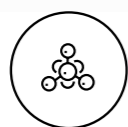

The perfect combination of performance and value with no compromise

Trailhead co-ex WPC decking is a robust decking solution that draws inspiration from the great trails of a land of opportunity. This decking system is steeped in natural charm and harnesses all the power and integrity of the great outdoors. The natural grain design, scratch-resistant cap on three sides and grooved profile keep Trailhead decking looking spectacular today, tomorrow and in the future.

Trailhead is the perfect combination of value and performance but does not compromise on structural integrity.

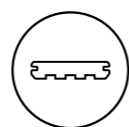

Deck board dimensions:
140 x 21 x 3660 mm

Co-extruded wood plastic composite deck boards.

Exceptional scratch-resistant cap material.

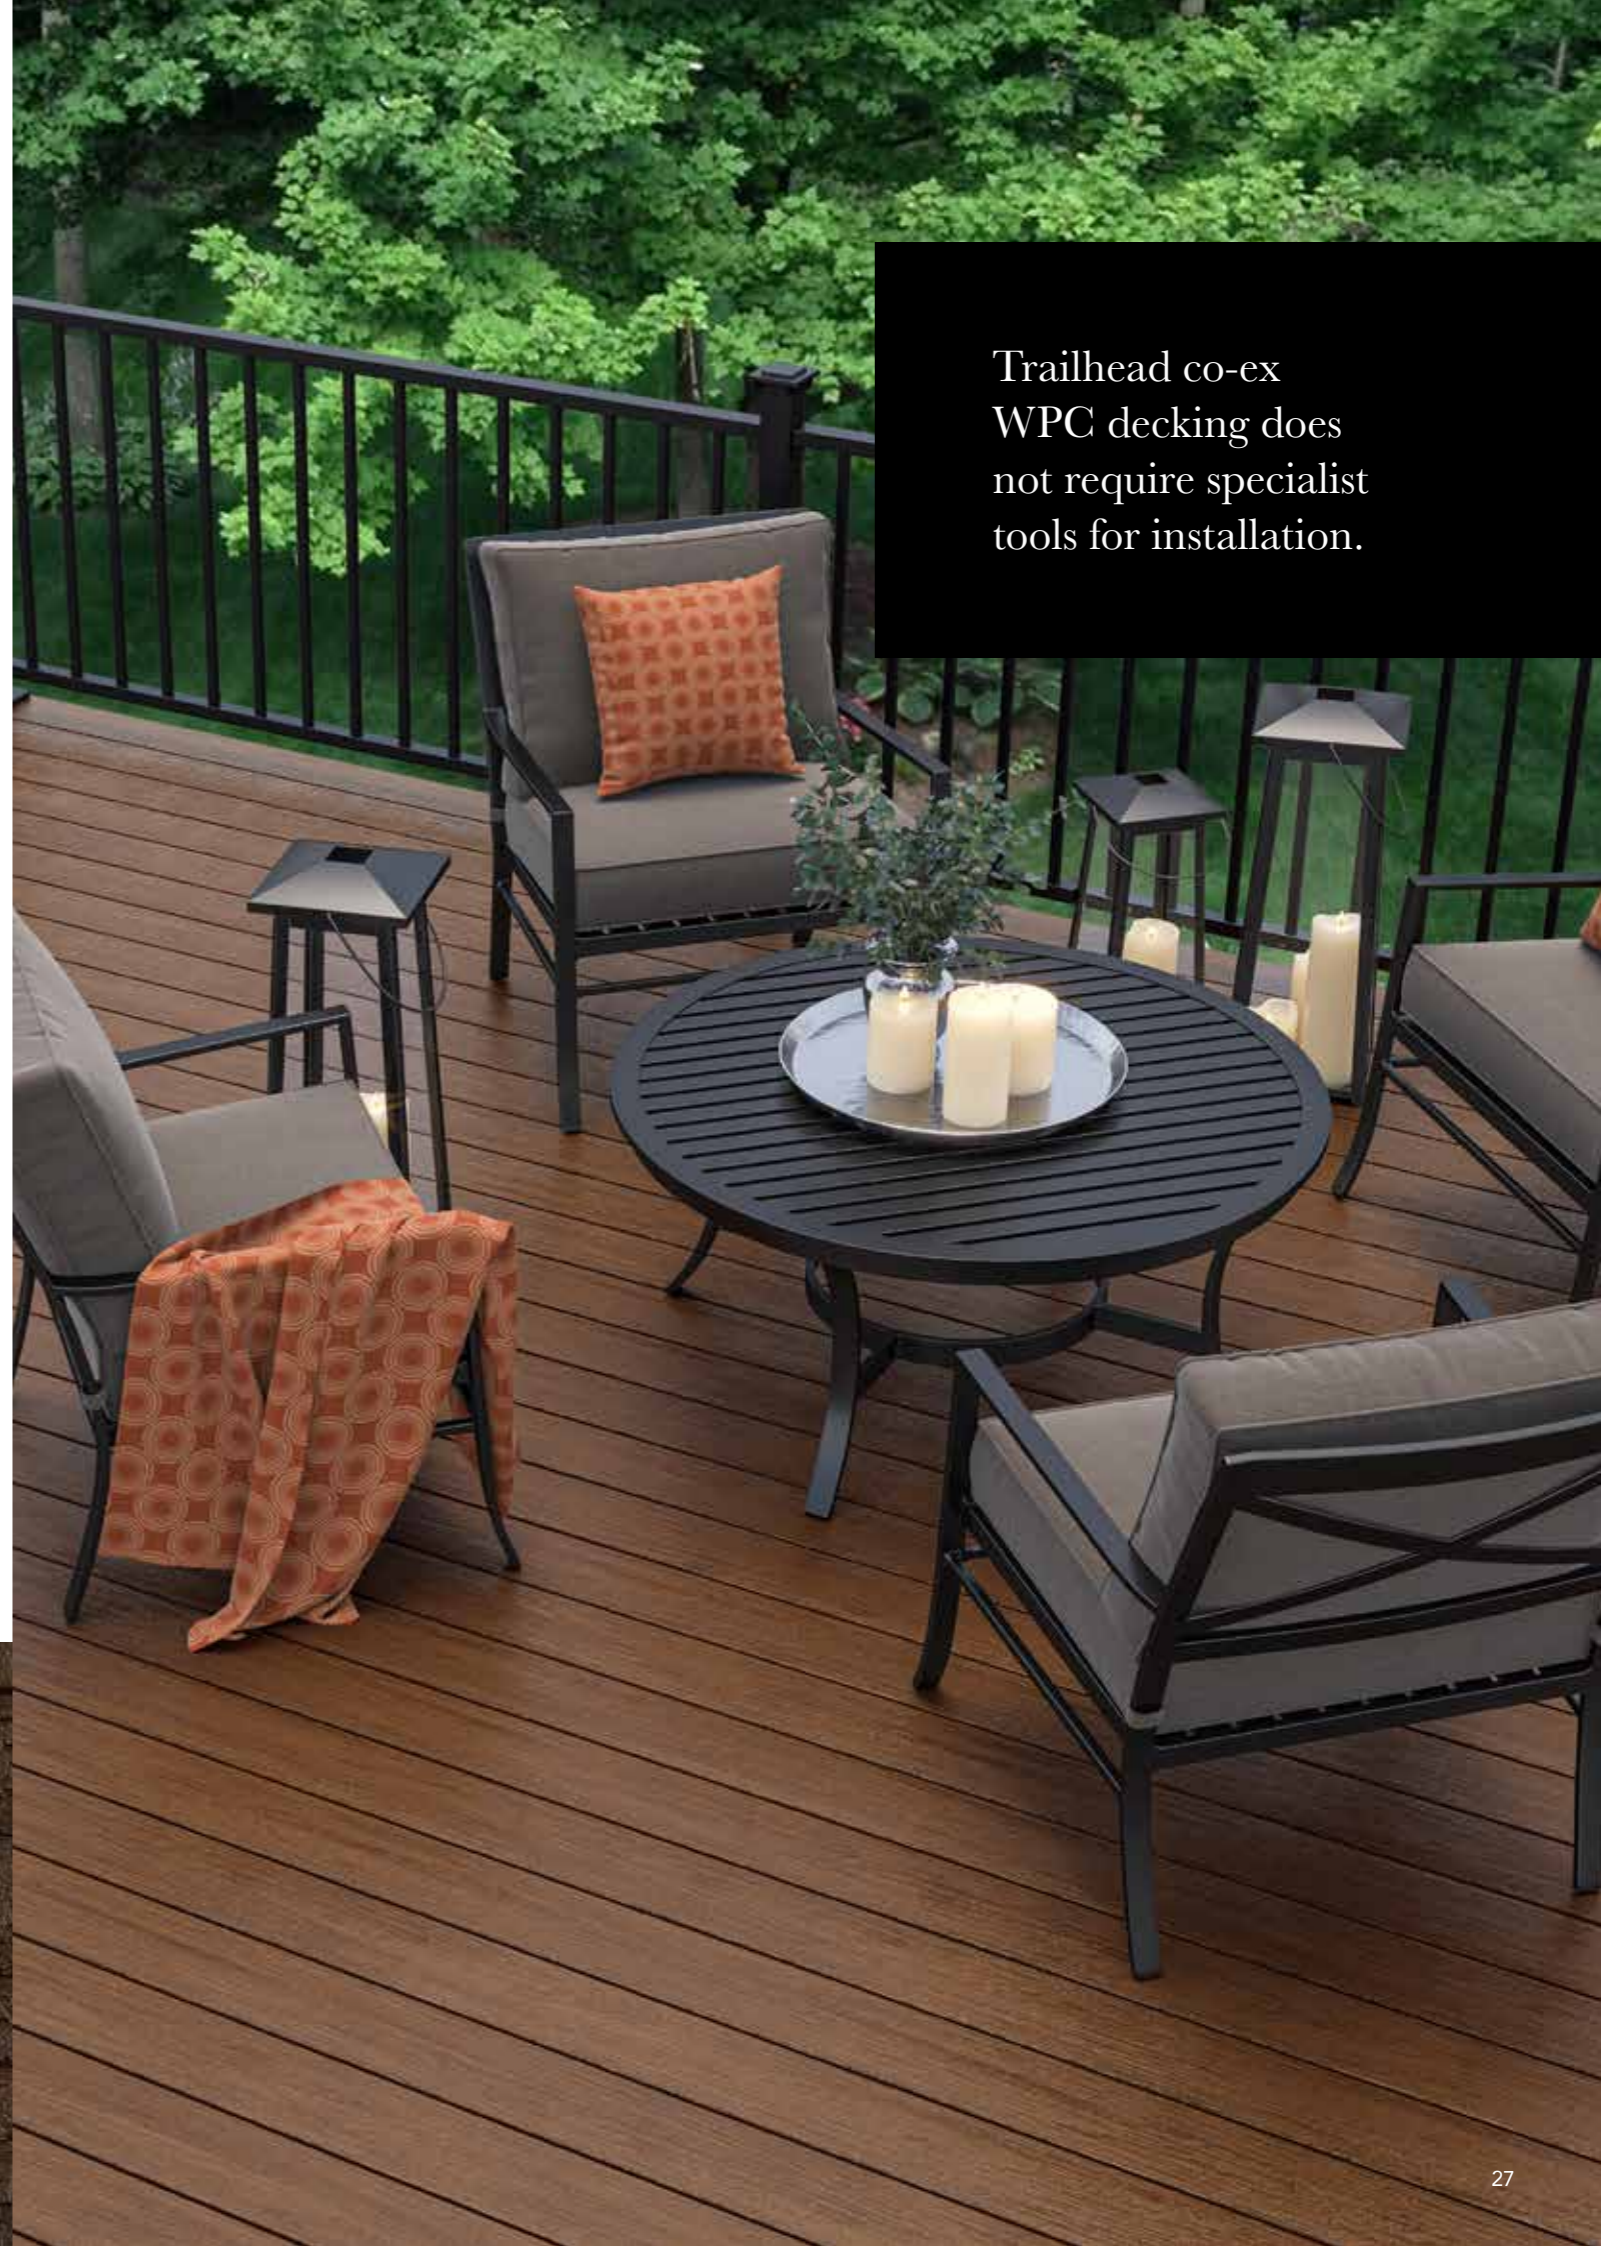

Grooved-edge profile.

Ridgeline

Pathway

Trailhead co-ex WPC decking does not require specialist tools for installation.

Ridgeline

Take exterior design to new heights and experience the light grey hues of Ridgeline in any environment where comfort is key.

Pathway

Welcome much-needed direction and design flair into exterior spaces with the rich and earthy Pathway colour option.

It's easier than ever to supply the full package for outdoor projects with our decking fixtures

Stowaway Hidden Fasteners

Discreetly secure deck boards to joists using the grooved edges of decking and our Stowaway hidden fasteners. The Stowaway screw comes preloaded to make decking installation faster; this saves time and money. All deck boards are automatically spaced at consistent intervals to remove the need for pre-drilling and countersinking void.

Pro Fastening Systems

Pro fastening systems provide a seamless installation of composite deck or fascia boards while camouflaging deck screw heads. Choose from a full assortment of colour-matched deck screws to perfectly complement your deck or fascia boards.

Contact our team on 01278 455326 or email sales@stormbuildingproducts.com for more information about our fixings and accessories.

Brighten up your stock with deck lights and accessories

Black Bollard Light

The perfect solution for illuminating pathways, plants and shrubs. Bollard is 350 mm tall with a diameter of 75 mm.

Outdoor lighting is a popular accessory and can add the finishing touch to beautiful Deckorators® decking. STORM supplies LED lighting technology as it saves energy, provides high output, emits less heat and is safe to touch.

Deck Lights (Set of 4)

Ideal for lighting deck areas, patios and steps for style and safety. Can be mounted vertically and horizontally. Deck lights are 32 mm in diameter.

Deck Light Starter Kit

Includes 4 x 1 W deck lights, 1 x 72 W transformer, 3 x 1 m extension cables, 1 x 10 m extension cable and 3 x T-pieces.

Deck Lighting Accessories

Available: T-piece adaptor, 2 m extension cable, 10 m extension cable, automatic light sensor and 72 W outdoor transformer.

An industry-leading warranty

25-Year Structural Limited Warranty

All Deckorators® products are backed by an industry-leading warranty. Our 25-year* structural guarantee is the best warranty available for our durable Deckorators® decking.

Warrantor will, at its option, either replace or refund the appropriate prorated portion of the purchase price as set forth in the "Prorated Refund Schedule" below for any Deckorators® decking product used in a residential decking application that splinters, corrodes or becomes structurally unfit due to rot, warp, cupping, checks or damage caused by termites or fungal decay within 25 years from the date of purchase for residential application and 10 years for commercial application.

25-Year Stain Resistance Limited Warranty

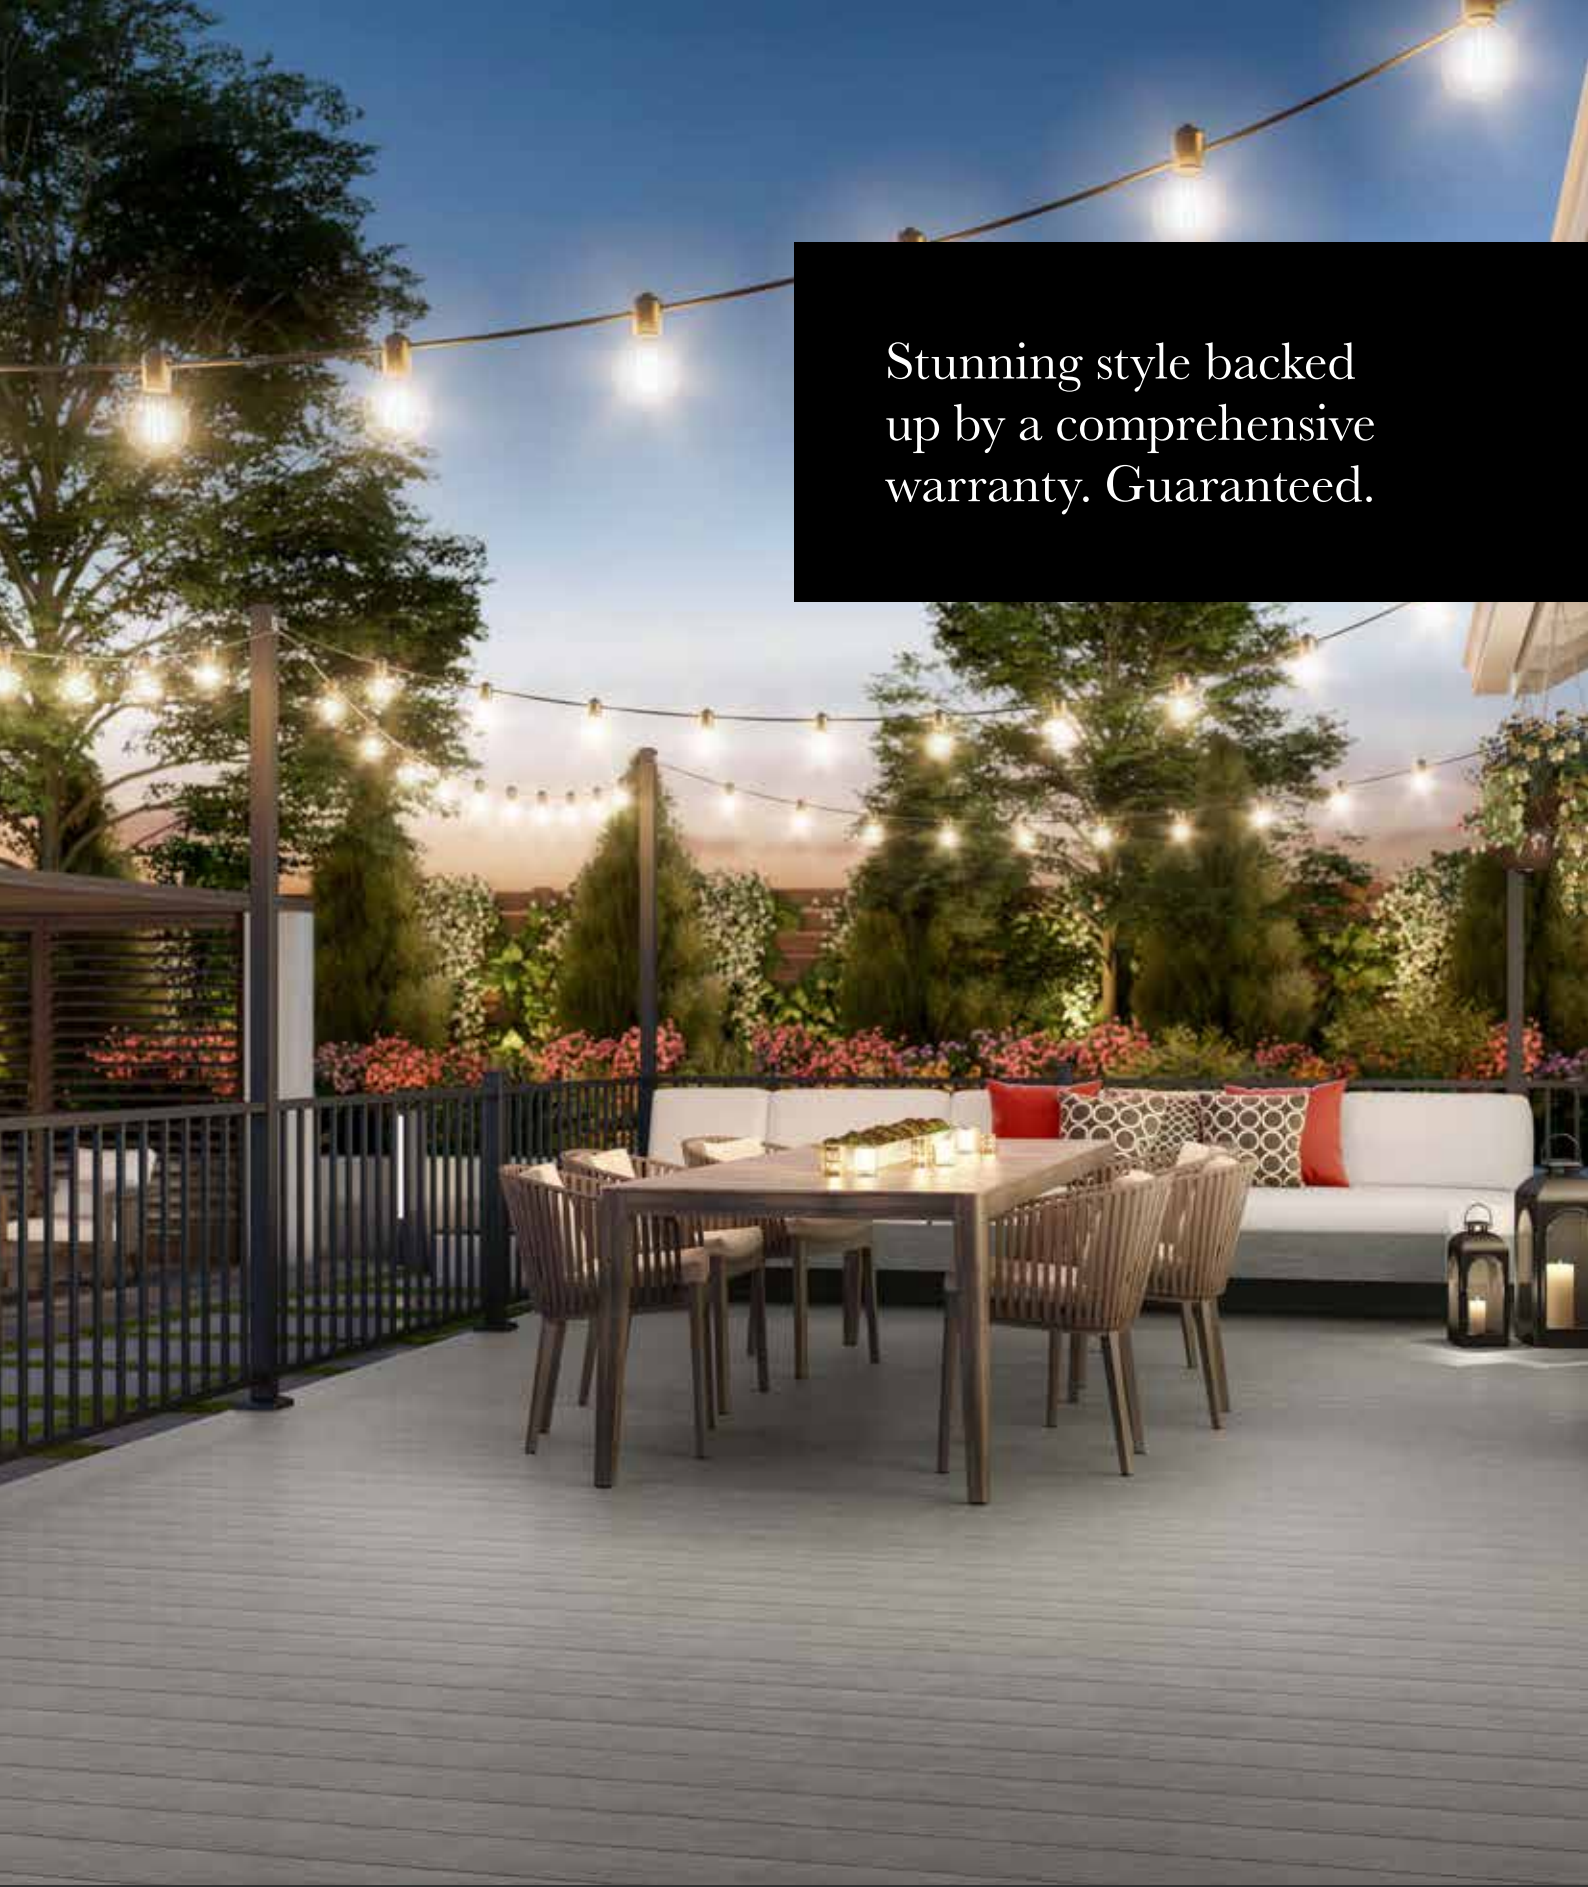

Warrantor will, at its option, either replace or refund the appropriate prorated portion of the purchase price as set forth in the "Prorated Refund Schedule" below for any Deckorators® decking used in a residential decking or railing application that exhibits permanent staining in the first 25 years from the date of purchase when exposed to food and beverage spills, including wine, tea, coffee, fruit punch, sodas, ketchup, salad oils, barbecue sauces, mustard and other food or beverage related items that would typically be present on a residential deck or porch. For any Deckorators® decking used in a commercial decking or railing application, the warranty above applies in the first 10 years from the date of purchase. This warranty will only apply if an attempt is made by the consumer to remove any such spill from the decking material with water and mild household cleaners within 48 hours of exposure to the surface and such attempt is unsuccessful. Staining as a result of spilt abrasive compounds of acidic or basic pH, strong solvents, oil-based paints or stains, metallic rust and other abnormal items not commonly used on a residential deck are not covered under this warranty.

25-Year Fade Resistance Limited Warranty

Warrantor will, at its option, either replace or refund the appropriate prorated portion of the purchase price as set forth in the "Prorated Refund Schedule" below for any barbecue product used in a residential decking that exhibits "excessive colour fade" within the first 25 years and the first 10 years for commercial decking from the date of purchase. Excessive colour fade is defined as a change in colour greater than five (5) Delta E (CIE) when calculated according to ASTM D2244 for all non-variegated colour surfaces. Excessive colour fade for variegated colour surfaces is defined as an unreasonable amount of colour change in excess of "normal weathering."

*25-year warranty for residential application and 10-year warranty for commercial application.

Stunning style backed up by a comprehensive warranty. Guaranteed.
